Activity Book Text

The Sibelius Monument was built in 1967 to celebrate the famous musician Jean Sibelius, who died in 1957.
Sibelius was from Finland, a country in Northern Europe. Sibelius's work is still popular today and played at concerts and in theaters all around the world.
The sculpture was created by the female artist Eila Hiltunen, who was also from Finland. The sculpture has 600 steel pipes of different sizes in an irregular shape. It is 8.5 meters high and 10.5 meters wide. Hiltunen wanted the sculpture to look like the way Sibelius's music sounds. You can see this sculpture in the Sibelius Park, in Helsinki, the capital city of Finland.

بُني نُصب سيليوس التذكاري عام 1967 تخليدًا للموسيقار الشهير جان سيبليوس الذي توفي عام 1957. كان سيبليوس من دولة فنلندا، وهي تقع في شمال أوروبا. لا تزال أعمال سيبليوس تحظى بشعبية حتى يومنا هذا ويتم عرضها في الحفلات الموسيقية والمسارح في جميع أنحاء العالم. التمثال من صنع الفنانة إيلا هيلتونن وهي أيضًا من فنلندا. يتكون التمثال من 600 أنبوب فولاذي بأحجام مختلفة في شكل غير منتظم. يبلغ ارتفاعه 8.5 مترًا وعرضه 10,5 متر. أرادت هيلتونن أن يبدو شكل التمثال مثل صوت موسيقى سيبليوس. تستطيع أن ترى هذا التمثال في حديقة سيبليوس في هلسنكي عاصمة فنلندا.

Behind the camera

It was two weeks until the school show ❶, and everybody was excited. Everybody except ❷ Magdy. "I'm going to play the piano," said Waleed. "The choir ❸ is going to sing beautiful songs," said Nesma. "And I'm going to make costumes ❹ for the choir," said Dalia. "I've written a funny play ❺!" said Samir.

Magdy was worried. He didn't go to piano lessons, and he didn't like singing. "What am I going to do?" he thought. On the way home, Magdy walked past ❻ the museum. There was an advertisement for a photography exhibition ❼. A black and white photo showed a man playing the piano on stage, with the audience ❽ in the shadow. "That's amazing," thought Magdy. It felt like he was there, listening to the music. At home, Magdy started looking in cupboards. "What are you doing?" asked Mom. "Dad has a good camera, doesn't he? Do you know where it is?" asked Magdy. "Yes," said Mom, taking a box from a shelf ❾. "He hasn't used it for a long time. Are you studying photography at school?" "No, but I'll learn!" Magdy said.

Magdy found his dad's photography books. He read about the different buttons ❿ on the camera. Then he learned how to edit the photos on the computer to make them lighter or darker. Magdy was excited. On the weekend, his mom and dad took him to a photography exhibition. After the exhibition, they went into the city and Magdy took photos of things he saw. Finally, Magdy spoke to his teacher. "Miss Salwa, I'm worried. I don't like being on stage. I don't like singing or acting, and I can't play an instrument ⓫." "Magdy, this is a chance for you to do something you enjoy, to express yourself. Can you think of something?"

Activity Book Text

It was the day after the school show. Magdy's friend Samir was visiting his grandma.

اليوم التالي للعرض المدرسي، كان سمير صديق مجدي يزور جدته.

"Hi, Grandma. I've come to visit you," said Samir.

قال سمير: "مرحبًا ياجدتي. لقد جئت لزيارتك."

"Hello, Samir," said Grandma. "How was the school show? Were you in a play?"

قالت الجدة: "مرحبًا يا سمير كيف كان العرض المدرسي؟ هل كنت في مسرحية؟"

"It was great, Grandma, but I wasn't in a play. Magdy and I don't like acting. Magdy was the photographer for the school show, but my job was better than that. I helped Mr Ibrahim make the props," said Samir excitedly.

قال سمير بحماس "كان رائعًا ياجدتي لكنني لم أكن في المسرحية. أنا ومجدي لا نحب التمثيل. كان مجدي هو المصور للعرض المدرسي ولكن وظيفتي كانت أفضل من ذلك. لقد ساعدت الأستاذ إبراهيم في صنع الركائز (الديكور)."

"What are props?" asked Grandma.

سألت الجدة: "ما هي الركائز؟"

"Props are the things that actors need on stage to make the play look real," said Samir. "If the play is about a family at home in the living room, you need some furniture - like a couch, a lamp, or some pictures for the wall. Sometimes we get the things we need from parents. But sometimes we make them!"

قال سمير "الركائز هي الأشياء التي يحتاجها الممثلون على خشبة المسرح لأداء المسرحية ممثلًا إذا كانت المسرحية تدور أحداثها حول عائلة في المنزل في غرفة المعيشة، فأنت بحاجة

إلى بعض الأثاث مثل أريكة أو مصباح أو بعض الصور للحائط. وفي بعض الأحيان نحصل على الأشياء التي نحتاجها من الوالدين ولكن في بعض الأحيان نصنعها."

"You make them?" said Grandma, looking surprised.

قالت الجدة وهي تبدو مندهشة: "أنتم تصنعونها؟"

"Yes, I love making things, Grandma. We use wood, cardboard, colored paper ..... anything! My teacher Mr Ibrahim is very good at making things and he shows me what to do," explained Samir.

قال سمير موضحًا: "نعم، أحب صنع الأشياء ياجدتي. نستخدم الخشب والكرتون والورق الملون ... أي شئ! مُعلمي الأستاذ إبراهيم جيد جدًا في صنع الأشياء ويشرح لي ما يجب عليّ أن أعمل."

"That sounds exciting, Samir. I'd like to see some of the things you made," said Grandma.

قالت الجدة: "هذا يبدو مثيرًا ياسمير. أود أن أرى بعض الأشياء التي صنعتها."

"That's easy," said Samir. "Magdy put his photos on the school website. I'll get my phone and I'll show you!"

قال سمير: "هذا سهل. لقد وضع مجدي صوره على موقع المدرسة. سأُحضر هاتفي وسأعرضها لك!"

My fantastic bedroom

by Seleem

We moved into ❶ a new apartment ❷ a month ago, and I'm so happy because I have a new bedroom!

I love my new room. It's a very light ❸ and comfortable room. I share it with my brother, Maged, and we're good friends.

We have a long desk for our PCs ❹ so we can do our homework in our bedroom. That's much better than doing it in the living room! There's too much noise ❺ there from our little sister and the TV! When we finish our homework, we can play computer games with our friends – that's a lot of fun! My favorite game is a building game ❻. We watch cartoons ❼ with our friends, too.

I also love swapping comic books ❽, and like reading them in bed. My friends and I swap them once a week and talk about them.

I'm learning to play the violin ❾ at the moment, and I practice a lot. I'm not very good yet, so sometimes my brother gets bored ❿ with my music, especially when he's tired! He's very sporty ⓫ and plays a lot of volleyball, so he does push-ups ⓬ in our room – he often does 30 in the evening!

Maged and I have many of the same friends. They're all awesome ⓭. Before we moved, we only chatted to ⓮ them online, but it's better now that we have a bigger bedroom. They come to our house to talk in our room.

One of our friends, Sherif, is an amazing chess ⓯ player. We both play chess at the school chess club. Chess is quite difficult for me, but, luckily, Sherif is helping me.

Maged and I like board games ⓰. We play them with our friends in our bedroom and with our family in the living room!

Grammar Study

The First Conditional [if] حالة (If) الأولى

We use the first conditional to talk about future situations. To form it, we use "if" plus the present simple and will plus the infinitive:

تُستخدم حالة (if) الأولى للحديث عن المواقف المستقبلية. لتكوين الجملة في هذه الحالة، تُستخدم (if) + المضارع البسيط و(will) + المصدر.

If + present simple ⟶ **will + infinitive**
If + مضارع بسيط ⟶ **will +** المصدر

will + infinitive ⟶ **if + present simple**
will + المصدر ⟶ **if +** مضارع بسيط

▶ If it's hot tomorrow, I'll make a smoothie.

▶ People won't get sick if they have a vaccine.

- **We use "can" plus infinitive to express ability. We use "may" plus infinitive when we aren't sure:**

- تُستخدم "can" + المصدر للتعبير عن القدرة. وتُستخدم "may" + المصدر عندما لا نكون متأكدين.

▶ If you arrive early, you can get a good seat.

▶ If she hurries, she may catch the train; I'm not sure.

- **Notice that when the "if" clause is second, we don't use a comma.**

- لاحظ أنه عندما نأتي جملة (if) في الجزء الثاني من الجملة، فإننا لا نضع فاصلة (comma).

▶ Dad can take you to school if you ask him now.

Note that: لاحظ أن

الأفعال (will – won't – may – ....) لا بد أن تُتْبَع بالفعل في المصدر، ومصدر الفعل هو أصل الفعل أي هو التصريف الأول للفعل بدون أي إضافات، أي بدون إضافة (s – es – ed – ing – .....).

The day the Bills broke down!

It's the Year 2089, and life on Earth is sweet! Humans have easy lives because every family has a Bill robot which works 24 hours a day for them. The Bill robots do all their **chores** (1). However, on this day, a year ago, something **terrible** (2) happened.

The day started normally. In Australia, some Bills were **ironing clothes** (3) for their humans to wear to work. In Italy, other Bills were quietly making milkshakes, and others were fixing cars. In Egypt, the Bills were making koshari for the next day's lunch. But then, all over the world, the noise of the robots suddenly stopped. All the Bills suddenly **broke down** (4). They fell to the ground, and their **lights went out** (5).

One family in Alexandria was **shocked** (6) when they saw their Bill lying on the kitchen floor. They tried to wake him up. "Bill!" said Mom, "What happened? We're waiting for our koshari!" Bill said nothing. Hesham, the young son, started crying, "I need a clean **uniform** (7) tomorrow," he said, "And who is going to iron my school pants?" "This is awful! I **programmed** (8) Bill to fix my car and change the battery in it. What am I going to do?" Dad said.

Everyone looked very **worried** (9), but the daughter, Fareeda, said, "We'll just do some chores ourselves, like people did in the past. We'll go on the internet and find out how to do things. That's what Granddad told me people used to do."

The family started trying to learn things from videos. They learned how to use a **blender** (10) and had milkshakes. Mom learned how to use the **microwave** (11) so they could **heat** (12) some food. They didn't really like that because Bill normally made the meals for the family. Dad tried to learn how to fix his car, but it was too difficult. And he certainly didn't understand how to change the car battery – that was

Activity Book Text

Caring for your indoor plants

الاعتناء بالنباتات التي تنمو (تزرع) داخل المنزل

Where can I buy an indoor plant?

You can buy indoor plants from supermarkets, florists, and garden, centers. These are stores that sell many different plants. It might be best to buy from a garden center as the assistants know how to look after the plants and they can give you some useful advice. Make sure you know what your plant is called so you can find out more about it.

أين يمكنني أن أشتري نبات ينمو داخل المنزل؟

يمكنك شراء النباتات التي تنمو داخل المنزل من السوبر ماركت ومحال الزهور ومراكز الحدائق. تلك هي محلات تبيع العديد من النباتات المختلفة. ربما من الأفضل أن تشتري من مركز الحديقة لأن البائعين هناك يعرفون كيفية الاعتناء بالنباتات ويستطيعون أن يقدموا لك بعض النصائح المفيدة. تأكد أنك تعرف اسم نوع نباتك لتستطيع معرفة المزيد عنه.

Where should I put my indoor plant?

Some plants need to be in a warm, sunny place with a lot of light, while others prefer a cool place that isn't sunny. Look on the internet to find the best place for your plant. Most plants don't like you to move them. So, find the perfect place and leave it there.

أين يجب أن أضع النبات الذي ينمو داخل منزلي؟

بعض النباتات تحتاج أن تكون في مكان دافئ ومشمس به الكثير من الضوء بينما تُفضل نباتات أخرى مكان بارد ليس مشمس. ابحث على الانترنت لتعرف أفضل مكان لنباتك. معظم النباتات لا تحب أن تحركها. لذلك قم بإيجاد أفضل مكان واتركها هناك.

Do plants need food?

Yes! The best time to feed your plant is spring and summer. Feed them with fertilizer. This is special plant food. Read the instructions carefully, because too much fertilizer can be bad for plants.

هل تحتاج النباتات للطعام؟

نعم! أفضل وقت لإطعام نباتك هو في فصل الربيع والصيف. قم بإطعامها بالأسمدة. السماد هو طعام مميز للنباتات. اقرأ التعليمات بحذر لأن الكثير من السماد يمكن أن يكون ضار بالنبات.

How often should I water the plant?

Some plants don't need much water and others need more. You can check the internet for more information. If you don't know, it's better to give them too little water than too much.

كم مرة يجب أن أسقي النبات؟

بعض النباتات لا تحتاج الكثير من المياه بينما تحتاج أخرى لمياه أكثر. يمكنك البحث على الانترنت للحصول على معلومات أكثر. إذا لم تكن تعرف، من الأفضل أن تعطي النبات القليل جدا من المياه وليس الكثير جدا من المياه.

How should I clean my indoor plant?

Use a soft brush or cotton cloth to dust the leaves. This means that you clean dry dirt from the leaves. For plants with thicker leaves, spray them with water and this will keep them healthy.

كيف يجب أن أنظف النبات المزروع في منزلي؟

استخدم فرشاة ناعمة أو قطعة قماش قطنيه لتزيل الغبار من أوراق النبات. مما يعني أنك تنظف القاذورات الجافة من الأوراق. قم برش النباتات ذات الأوراق السميكة بالمياه فذلك سيحافظ عليهم بصحة جيدة.

Did you know?

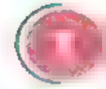

If you keep your plants happy and healthy, they will live for many years.

هل تعلم؟

إذا حافظت على نباتاتك سعيدة وبصحة جيدة، سوف تعيش لعدة سنوات.

The special house

Sameh and Nadine were on school vacation (1) at home with their parents.

One morning, Sameh was in the living room, playing with his new kitten (2). Suddenly, the kitten jumped off (3) the chair and ran through a small hole (4) in the wall! Sameh put his hand through the hole to get her, but all he could feel was some paper. He pulled the paper – it was very old. On it, there was a message in a child's writing: Hello, I'm Monira! I live here. Sameh felt very curious (5).

The next day, it was raining. Sameh and his sister, Nadine, were feeling bored.

"Let's go up and look in the spare room (6)," Sameh said.

In the spare room, they found some old boxes. Sameh looked in one of the boxes and found a little house and a doll (7). The doll was beautiful, and underneath (8), there was a birthday card: *To Monira on your birthday, much love, Grandma.*

Just then, their Dad called them downstairs (9).

"Dad!" said Sameh. "Who is Monira?". Dad looked shocked (10).

"Why are you asking that?" he said.

"Look at this doll and this card!" replied Sameh.

"I don't believe it!" said Dad, looking at the things. "Let me tell you about the history of this house. It was built from bricks (11) and stone in the 1950s. My grandma – your great-grandmother (12) – lived here with her mom, dad, and five brothers and sisters."

"But you still haven't told us who Monira is!" said Sameh.

Classrooms at the...

A roof garden in a city

Classrooms are not the same in every school.

Here are two places where classrooms are a little different.

Classrooms on the roof!

In Egypt, some classes have their lessons in a garden on the roof ❶ of the school!

The Shagara at School project ❷ designs gardens and green roofs for schools in Egypt.

❶ سطح
❷ مشروع

Green roofs are gardens on the top of a building. They bring nature into the city. They also clean and cool the air. That means that they are great for the environment.

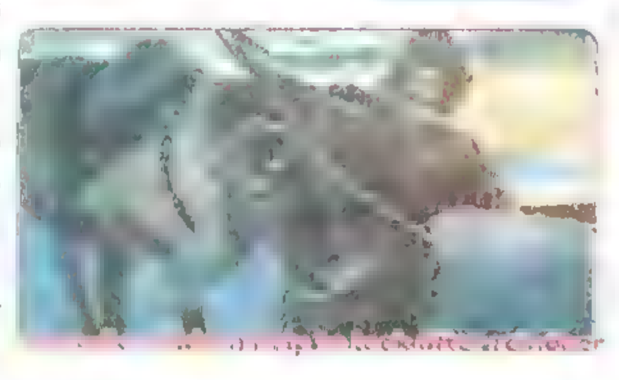

The project teaches students and teachers how to plant a roof garden. They learn about which plants grow well in the hot, dry weather.

In 2017, classes at one school started going to their green roofs for lessons. People at the project thought this was an amazing idea! In 2019, they built their first classroom on the roof. The desks are in the shade (3), but there are no walls. Students and teachers have space and can see the flowers and plants.

The Shagara at School Project says roof gardens can help students in many city schools. Green outdoor (4) places make us calm and healthy – and that is great for learning.

Classrooms on the move!

In Northern Siberia (5), some students have their lessons in tents (6) on the ice and snow! Many people in the North of Siberia are nomadic (7). This means that they don't live in one place. They travel in sleds (8) across the frozen land (9) and sleep in tents. They look after reindeer (10) and take them to where there is food. So, how do their children get an education? There are two ways. First, some children go away to boarding school (11). These children are away from (12) their families for many months every year. They can't learn traditional skills (13) from their parents, and they often forget their culture's language. The second way is nomadic school. This is a school which travels with the families. The classrooms are tents on the ice, or mobile rooms (14) on wheels (15). The children study school subjects like math, science, and computing (16). However, they also study their own language and traditional skills. The timetable (17) is flexible (18), so they can help their families with the chores (19). At nomadic school, the children are happy because they can stay with their families and get a good education. They learn everything about how to live in their snowy land!

The bridge to school

Lina lay awake ❶, listening to the wind and rain. The storm ❷ lasted all night. Then, as the sun came up ❸, she heard a crash ❹. She ran to the window. "What was that?" asked her sister, Sarah.

Lina looked at the river near their house. "Oh no!" she said. "The bridge ❺ has collapsed!"

The village where Lina and Sarah lived was small, and had steep mountains ❻ all around it. The bridge over the river was the quickest way to get to the town, with the school, stores, doctors, and sports center ❼.

They ran to the kitchen to see their parents. "I've just listened to the radio," said Mom. "They said that the storm would stop soon. Then we can see what has happened."

Eventually, the rain stopped, and Lina and her family walked to the river. Other people were there too.

Lina's dad pointed to ❽ the broken bridge. He said that they couldn't go to town, or the school. "What are we going to do?" asked Lina.

They had to stay at home that day, and their teacher sent work for them to do online.

The next morning, a school bus drove into the village square ⑨."Look, Lina," said Sarah. "The bus is here!"

"The bus?" said Lina. "But it's such a long way by road!"

"I know, but it's the only thing we can do," said Sarah, picking up her bag and running to the door.

As Lina got on the bus, she looked at the bridge. Seeing it broken made her sad. Their life would be different until someone repaired it. She enjoyed going across it in the mornings, and walking up the hill ⑩ on the other side. She was often the first to arrive at school. Now she would be late!

The bus journey took two hours. It was hot, and the traffic moved slowly. Lina was sleepy and sad.

The next day, Lina and her friends took the bus to school. To their surprise ⑫, when they came home, they saw engineers and builders at the river. They smiled at the children.

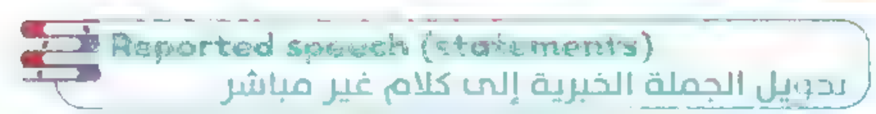

"We heard about your letter!" said a man in a yellow coat. "We're building a new bridge, so you can get to school quickly."

After a week, there was a new metal ⑬ bridge.

"Well done, Lina," said Sarah. "Your letter helped everybody!"

Why we're all special by Reem

Today, our teacher, Mrs Mona, asked us, "How are we different to each other?"

① نظارة
② جهاز تقويم أسنان
③ كرسي متحرك
④ جهاز المساعدة على السمع

That's an easy question to answer! Asser is very tall. He's taller than everyone else in the class. I'm very short. I have green eyes and Asser has brown eyes. Seleem's hair is curly, but Waleed's hair is very straight, and he wears glasses ①. Injy wears braces ② to help her teeth get straight. Amal uses a wheelchair ③ because she cannot walk well. Amina has a hearing aid ④ because she has problems hearing.

Mrs Mona teaching our class

We have different families, too – I have three sisters, but my best friend Amal has two brothers! My friend Dalia loves sports, but I prefer language classes.

Then, Mrs Mona asked us to tell our friend about something that makes them special. I told Amal I love her curly hair ⑤ and the way she helps me with math – she's the best at math in the class! And Amal told me she loves the way I make her laugh when she's feeling a bit sad.

Mrs Mona said, "Imagine a world where we're all the same. What would it be like?"

"Actually," said Sherif, "I think it would be a bit boring."

"Yes," said Sally, "it would be really boring."

"And imagine if everyone was good at the same things?" said Mrs Mona.
"Well, then it wouldn't be very exciting," I said.

"It's good that everyone is different," said Mrs Mona. "We don't look the same because our families are different. Some of us are tall, some short, some have curly hair, and some have straight hair ⑥.

Some of us have two brothers and sisters, and others have three. Some of us are good at music, and others are good at sports." Everyone agreed.

"The important thing is that we look after each other in our classroom. People shouldn't be unkind to someone because they're different. Our school is for everyone – we are all equally important," said Mrs Mona.

"But what should we do if we see someone being mean ⑦ at school?" asked Injy. "I saw someone being unkind to Tarek the other day because he forgot his glasses, and so he couldn't see well."

"You should always come and see me, or another teacher," said Mrs Mona. "Here at school we should all help each other."

The elephants and the mice

Many years ago, a herd ❶ of elephants lived in India. They were happy, and their leader ❷, the queen, was the kindest and best of the elephants. During the day, it was very hot, and the elephants liked to swim in the lake.

Near that lake, there was an old village.

Nobody lived in the village now, but there were hundreds of mice ❸. Their leader, the king, was kind. The elephants and the mice lived well together.

But, one day, the elephants changed their route ❹ to the lake. This meant they walked along a path ❺ that was too close to ❻ the mice. Many of the elephants didn't see the mice. They walked on them and hurt them ❼.

After a while, the mice said to the mouse king, "This cannot continue! It isn't safe for us!" The mouse king said, "Don't worry – I'll talk to the elephant queen," and he went to see her.

The mouse king met the elephant queen and explained the problem. She was shocked ❽ to hear what was happening and agreed to go a different route.

"Thank you for listening and respecting our needs," said the mouse king, "One day, I hope we can help you if you're in a difficult situation ❾."

The elephant queen nodded ❿, but thought, "We elephants are the most powerful animals in India – why would we need help from little mice?"

A few weeks later, some hunters ⓫ were watching the elephants and left nets ⓬. The next day, when the elephants went to the lake, they got caught ⓭ in the nets. They couldn't move, and they roared ⓮ and roared, making the loudest noise. The mice heard the loud noise and came running.

Hana saves the day

Hana is a good friend who lives on my street. One day, after school, she called me.

"My new walker ❶ arrived. Do you want to come over ❷ and help me decorate ❸ it?"

Excited, I ran to her house. As she gets taller, Hana receives a new walker every year. When the new one arrives, we decorate it. Hana's favorite color is green, so we painted ❹ it green and decorated it with stars and stickers ❺. It looked awesome.

"What should we do now, Reem?" asked Hana.

"I think we should go to the park," I said.

We often go for a walk to the park after school. Hana's physiotherapist ❻, Donia, says it's important for Hana to get fresh air and exercise her legs so they get stronger.

"Well," she said, "when I was born, something happened to my brain and it works differently to some other people's. My dad calls it my special brain. The name for what I have is cerebral palsy ❼."

"Can you do everything with the walker?" asked Rasha.

"No, for eating meals I have a special chair at home, and for going out in the car, I have a special seat ❽ - it's really comfortable."

Then we walked a little more with our friends. Hana was walking behind with Nadine, our other friend. Suddenly, a woman came running towards us, and she was crying.

"I can't see my little boy!" she said. "I turned around ⑨ to get him a snack ⑩ from my bag, and now I can't see him!"

"How old is your little boy?" asked Rasha.

"Only one. He can't walk, he crawls ⑪ along the ground."

So we all looked in the grass, and the snack bar, but we didn't see him. Then, I noticed ⑫ there was a group of trees behind where the woman was sitting.

"Let's look over there!" I said. "And where's Hana?"

Nobody knew. We all ran over to the trees, quite scared ⑬ because it was near the road.

"Adam!" shouted ⑭ the woman, and she stopped crying.

There was Adam, pulling himself up on Hana's walker, and Hana was talking to him quietly. His mom was so thankful ⑮ that Hana found him. We were all so relieved ⑯ and happy, and we had an ice cream to celebrate ⑰!

Planning a new village

In the 1960s, an organization ❶ (called the ODD) asked Hassan Fathy to design ❷ a village in the desert ❸ at Kharga for the farmers. There were two challenges ❹. Firstly, it was important to keep the village cool for the people there. Sometimes, the temperature ❺ rose to ❻ 50 degrees ❼ in the desert at Kharga. Secondly, the farmers needed water for their crops ❽ and families. They needed to find water before building the new houses.

Building in the desert

A well at New Baris

The ODD had a team of builders ❶. Luckily, the builders found a well ❷ and they were very happy. Hassan Fathy could start ❸ building. He began work in 1963. To keep the village houses cool, they were made of mud bricks. The village also had windcatchers ❹ – they are tall buildings which hold ❺ hot air and cool it down.

A windcatcher

Fathy carefully studied the position of the sun and designed the area ❻ so that the buildings gave shade ❼ to people in the streets. He started with his domed roofs for the houses. Then, he added a taktabosh courtyard ❽, which provided a shaded seating ❾ area outside ❿. Hassan Fathy added the suk and other buildings for the people. He believed it was important to create ⓫ communities ⓬, not just houses.

Subject: What I have seen at the pet shop
Hi Ola,
You won't believe what I saw at the pet shop today! They had so many cute pets! The seller told me some cool things about taking care of pets. He said that pets need love, food, and a safe home. For dogs, they need walks and playtime. Cats need scratching posts. And for fish, they need a clean tank and the right food. I'm excited about getting a pet someday!
Take care,
Jana
